You can never see into the future. But our vision plan helps make the path to getting there a little clearer.
The First Plan Designed to Help Protect One of Your Most Valuable Assets—Your Vision

According to an old proverb, the eyes are the windows of the soul. While we agree that may be true in a philosophical sense, at Aflac we also believe your eyes are the windows to even more: Your overall health for instance. Aside from maintaining good vision and detecting conditions such as glaucoma, eye exams can also reveal much more. They can help spot high blood pressure, diabetes, high cholesterol, and even brain tumors.

That’s why we’ve developed the Aflac Vision Now® vision insurance policy.

The Aflac Vision Now® plan is different because it encourages individuals and their families to be more proactive and preventive about caring for their vision. Most importantly, it takes vision insurance to the next level by paying benefits for eye surgeries, specific eye diseases/disorders, and permanent visual impairment.
