IMPORTANT: This is a fixed indemnity policy, NOT health insurance.

This fixed indemnity policy may pay you a limited dollar amount if you're sick or hospitalized. You're still responsible for paying the cost of your care.

- The payment you get isn't based on the size of your medical bill.
- There might be a limit on how much this policy will pay each year.
- This policy isn't a substitute for comprehensive health insurance.
- Since this policy isn't health insurance, it doesn't have to include most Federal consumer protections that apply to health insurance.

Looking for comprehensive health insurance?

- **Visit [HealthCare.gov](https://www.healthcare.gov)** or call **1-800-318-2596** (TTY: 1-855-889-4325) to find health coverage options.

What you need, when you need it

Like most Americans, you may feel that financial well-being isn't much of a reality these days. With inflation and health care costs on the rise, consumers of all incomes are struggling to make ends meet. And since health insurance was never really designed to cover all the costs of medical care, an unplanned visit to the hospital could leave you with unexpected medical bills, only adding to financial struggles.

Even if it's planned, a trip to the hospital can result in unexpected medical bills. And while we can't take all the uncertainty out of your stay, Aflac can help ease the financial strain that may result. With the Aflac Hospital Advantage policy, benefits are paid directly to you, unless specified otherwise, to help with those out-of-pocket hospital expenses that may not be fully covered by your major medical plan.

Understand the difference Aflac makes in caring for your vision.

Aflac pays cash benefits directly to you, unless otherwise assigned, for covered hospital expenses. We provide you with financial resources to help you overcome some of the unexpected expenses associated with a visit to the hospital, giving you less to worry about so you can focus your energy on getting better.

Aflac will pay the following benefits, as applicable, for a covered sickness or injury that occurs while coverage is in force. Treatment or confinement in a U.S. government hospital does not require a charge for benefits to be payable.

Benefits overview

BENEFIT:	DESCRIPTION:
HOSPITAL CONFINEMENT BENEFIT	Aflac will pay \$1,500–\$3,000 in \$500 increments. Aflac will pay the amount listed in the Policy Schedule when a covered person requires hospital confinement for 23 or more hours for a covered sickness or injury and a charge is incurred. This benefit is payable once per period of hospital confinement, per covered person. Confinements must be separated by a minimum of 90 days from the previous covered hospital confinement for this benefit to be payable. No lifetime maximum.
DAILY HOSPITAL CONFINEMENT BENEFIT	Aflac will pay \$50 per day for the period of hospital confinement, when a covered person requires hospital confinement for a covered sickness or injury and a charge is incurred. This benefit is payable in addition to the Hospital Confinement Benefit. The maximum benefit period for any one period of hospital confinement is 365 days. No lifetime maximum.
HOSPITAL INTENSIVE CARE UNIT CONFINEMENT BENEFIT	Aflac will pay \$50 per day when a covered person incurs a charge for a period of hospital intensive care unit confinement for a covered sickness or injury. This benefit is payable in addition to the Hospital Confinement Benefit and the Daily Hospital Confinement Benefit. Confinements must be separated by a minimum of 90 days from the previous covered hospital intensive care unit confinement for this benefit to be payable. The maximum benefit period for any one period of hospital intensive care unit confinement is 30 days. No lifetime maximum.
WAIVER OF PREMIUM BENEFIT	Upon written notice, Aflac will waive from month to month any premium(s) falling due during a continued period of hospital confinement for the named insured only. This benefit will begin after the period of hospital confinement for the named insured has exceeded 30 consecutive days. When such continued period of hospital confinement has ended, premium payments must be resumed. Once premium payments are resumed, any new period of hospital confinement must again satisfy the 30-day continued confinement for premiums to be waived.

Benefits and/or premiums may vary based on state and benefit option selected. The policy has limitations, exclusions, and pre-existing condition limitations that may affect benefits payable. The policy may contain a waiting period. This brochure is for illustrative purposes only. Refer to the policy for benefit details, definitions, limitations and exclusions. Aflac will not pay benefits whenever coverage provided by the policy is in violation of any U.S. economic or trade sanctions. If the coverage violates U.S. economic or trade sanctions, such coverage shall be null and void.

Aflac will not pay benefits whenever fraud is committed in making a claim under this coverage or any prior claim under any other Aflac coverage for which you received benefits that were not lawfully due and that fraudulently induced payment.

- Receiving routine nursing or routine well-baby care for a newborn child;
- Having treatment for alcoholism, or drug addiction;

TERMS YOU NEED TO KNOW

COVERED PERSON: any person insured under the coverage type that you applied for on the application: individual (named insured listed in the Policy Schedule), named insured/spouse only (named insured and spouse), one-parent family (named insured and dependent children), or two-parent family (named insured, spouse, and dependent children). Spouse is defined as the person to whom you are legally married and who is listed on your application. This includes the relationship created by a domestic partnership. Newborn children are automatically insured from the moment of birth. If coverage is for individual or named insured/spouse only and if payment of an additional premium is required to provide coverage for a newborn child, you must notify Aflac in writing within 60 days of the child's birth, and Aflac will convert the policy to one-parent family or two-parent family coverage and advise you of the additional premium due. Coverage will include any other dependent child, regardless of age, who is incapable of self-sustaining employment by reason of developmental disability or physical handicap and who became so incapacitated prior to age 26 and while covered under the policy. Dependent children are your natural children, stepchildren, or adopted children who are under age 26.

EFFECTIVE DATE: the date(s) coverage begins as shown in the Policy Schedule or on any attached endorsements or riders. The effective date is not the date you signed the application for coverage.

GUARANTEED-RENEWABLE: the right to renew the policy by payment of the premium due on or before the renewal date. The policy is guaranteed-renewable for your lifetime, subject to Aflac's right to change premiums by class upon any renewal date.

HOSPITAL CONFINEMENT: a stay of a covered person confined to a bed in a hospital for 23 or more hours for which a room charge is made. The hospital confinement must be on the advice of a physician, medically necessary, and the result of a covered sickness or injury. The term hospital confinement does not include emergency rooms.

INJURY: a bodily injury caused directly by an accident, independent of sickness, bodily infirmity, or any other cause, occurring on or after the effective date of coverage and while coverage is in force. See the Limitations and Exclusions section for injuries not covered by the policy.

PERIOD OF HOSPITAL CONFINEMENT: the number of days a covered person is assigned to and incurs a charge for a bed in a hospital. Confinements must begin while coverage under the policy is in force. Covered confinements not separated by 90 days or more from a previously covered confinement are considered a continuation of the previous period of hospital confinement. Hospitalization that begins prior to the end of one calendar year and continues into the next calendar year will be considered one confinement.

PERIOD OF HOSPITAL INTENSIVE CARE UNIT CONFINEMENT: the number of days a covered person is assigned to and incurs a charge for a bed in a hospital intensive care unit. Confinements must begin while coverage under the policy is in force. Covered confinements not separated by 90 days or more from a previously covered confinement are considered a continuation of the previous period of hospital intensive care unit confinement. Hospitalization that begins prior to the end of one calendar year and continues into the next calendar year will be considered one confinement.

PRE-EXISTING CONDITION LIMITATIONS: a pre-existing condition is an illness, disease, infection, disorder, or injury for which, within the 12-month period before the effective date of coverage, prescription medication was taken or medical testing, medical advice, consultation, or treatment was recommended or received, or for which symptoms existed that would ordinarily cause a prudent person to seek diagnosis, care, or treatment. Care or treatment caused by a pre-existing condition will not be covered unless it begins more than 12 months after the effective date of coverage.

SICKNESS: an illness, disease, infection, or disorder, independent of injury, medically evaluated, diagnosed, or treated by a physician more than 30 days after the effective date of coverage and while coverage is in force.
