PEACE OF MIND. CASH BENEFITS.

OUR INSURANCE POLICIES HELP PROVIDE BOTH.

Riders become part of the policy and are subject to all policy provisions, except the pre-existing condition limitations, unless modified herein.

WHAT WE WILL PAY

Important: Benefits are paid for a covered spouse and dependent children at 50 percent of the primary insured's benefit amount. All benefits reduce by one-half for losses incurred on or after the 75th birthday of a covered person. (This could result in the benefit amount for a covered spouse and dependent children reducing twice.)

Aflac will not accept an assignment of these benefits. All benefits will be payable to you. Any accrued benefits unpaid at your death will be paid to your estate.

INTERNAL CANCER BENEFIT

Aflac will pay the same amount selected for the Major Critical Illness Event Benefit/Major Critical Illness Benefit upon a covered person's onset date of internal cancer. This benefit is payable once per covered person, per lifetime.

CARCINOMA IN SITU BENEFIT

Aflac will pay \$3,000 upon a covered person's onset date of carcinoma in situ. This benefit is payable once per covered person, per lifetime.

DEFINITIONS

CARCINOMA IN SITU: a carcinoma in the natural or normal place, confined to the site of origin without having invaded neighboring tissue.

INTERNAL CANCER: a disease that let itself be known by the presence of a malignant tumor and characterized by the uncontrolled growth and spread of malignant cells and the invasion of tissue. Internal cancer also includes but is not limited to leukemia, Hodgkin's disease, myeloproliferative

and myelodysplastic blood disorders, and invasive melanoma of Clark's Level III or higher, or a Breslow level greater than 1.5 mm. Internal cancer must receive a positive medical diagnosis. Premalignant conditions or conditions with malignant potential, other than those specifically named above, are not considered internal cancer. Internal cancer does not include nonmelanoma skin cancers, noninvasive melanoma skin cancers, or carcinoma in situ.

LOSS: internal cancer, or carcinoma in situ.

ONSET DATE: the day the tissue specimen, culture, and/or titer is taken upon which the diagnosis of internal cancer or carcinoma in situ is based. The onset date is not the date the diagnosis is communicated to the covered person.

SKIN CANCER: a cancer that forms in the tissues of the skin and is confined to the skin. There are several types of skin cancer. Skin cancer that forms in melanocytes (skin cells that make pigment) is called melanoma.

- 1. NONMELANOMA SKIN CANCER:** a cancer other than a melanoma that begins in the upper part of the skin (epidermis).
- 2. NONINVASIVE MELANOMA SKIN CANCER:** a cancer that has not spread outside the tissue in which it began and includes melanoma of Clark's Level I or II, or a Breslow Level less than or equal to 1.5 mm.
