If you are eligible for Medicare, review the "Guide to Health Insurance for People With Medicare" furnished by Aflac.

(1) Read Your Policy Carefully: This Outline of Coverage provides a very brief description of some of the important features of your policy. This is not the insurance contract and only the actual policy provisions will control. The policy itself sets forth, in detail, the rights and obligations of both you and Aflac. It is, therefore, important that you **READ YOUR POLICY CAREFULLY.**

(2) The Supplemental Insurance Policy is designed to provide, to persons insured, limited or supplemental coverage to supplement your existing accident and sickness coverage only when certain Losses occur as a result of Critical Illness Events. Critical Illness Events are: Heart Attack, Stroke, Major Human Organ Transplant, End-Stage Renal Failure, Paralysis, or Coma. Coverage is provided for the benefits outlined in Part (3). The benefits described in Part (3) may be limited by Part (5).

For any benefit to be payable, the Onset Date of the Loss must occur on or after the Effective Date of coverage and while coverage is in force. Aflac will not accept an assignment of these benefits. All benefits will be payable to you. Any accrued benefits unpaid at your death will be paid to your estate.

CONSULT THE POLICY ITSELF TO DETERMINE GOVERNING CONTRACTUAL PROVISIONS.**

TERMS YOU NEED TO KNOW

COMA: a continuous state of profound unconsciousness diagnosed or treated on or after the effective date of coverage, lasting for a period of seven or more consecutive days and characterized by the absence of: (1) spontaneous eye movements, (2) response to painful stimuli, and (3) vocalization. The condition must require intubation for respiratory assistance. Coma does not include any medically induced coma.

CORONARY ARTERY BYPASS GRAFT SURGERY: open-heart surgery to correct narrowing or blockage of one or more coronary arteries with bypass grafts, but excluding procedures such as but not limited to coronary angioplasty, valve replacement surgery, stent placement, laser relief, or other surgical or nonsurgical procedures.

Spouse is defined as the person to whom you are legally married and who is listed on your application. Newborn children of any covered person are automatically insured from the moment of birth. If coverage is for individual or named insured/spouse only and you desire uninterrupted coverage for a newborn child, you must notify Aflac in writing within 31 days of the birth of your child, and Aflac will convert the policy to one-parent family or two-parent family coverage and advise you of the additional premium due. Coverage will include any other dependent child, regardless of age, who is incapable of self-sustaining employment by reason of mental retardation or physical handicap, and who became so incapacitated prior to age 26 and while covered under the policy. Dependent children are your natural children, stepchildren, or legally adopted children who are under age 26. A dependent child (including persons incapable of self-sustaining employment by reason of mental retardation or physical handicap) must be under age 26 at the time of application to be eligible for coverage.

CRITICAL ILLNESS EVENT: heart attack, stroke, major human organ transplant, end-stage renal failure, paralysis, or coma.

HEART ATTACK: a myocardial infarction. The attack must be positively diagnosed by a physician and must be evidenced by electrocardiographic findings or clinical findings together with blood enzyme findings. Heart attack shall not be construed to mean congestive heart failure, atherosclerotic heart disease, angina, coronary artery disease, cardiac arrest, or any other dysfunction of the cardiovascular system. Sudden cardiac arrest is not a heart attack.

LOSS: a critical illness event, coronary artery bypass graft surgery, or sudden cardiac arrest.

MAJOR HUMAN ORGAN TRANSPLANT: a surgery that was first recommended by a member of the medical profession after the effective date of coverage in which a covered person receives, as a result of a surgical transplant, one or more of the following human organs: heart, kidney, liver, lung, or pancreas. It does not include transplants involving mechanical or nonhuman organs.

ONSET DATE: the date of the occurrence for a heart attack, stroke, or sudden cardiac arrest; the date of diagnosis for end-stage renal failure, paralysis, or coma; or the date of surgery for a major human organ transplant or coronary artery bypass graft surgery.

PARALYSIS: complete and total loss of use of two or more limbs (paraplegia, quadriplegia, or hemiplegia) for a continuous period of at least 30 days as the result of a covered spinal cord injury. The paralysis must be confirmed by your attending physician.

PHYSICIAN: a person legally qualified to practice medicine, other than you or a member of your immediate family, who is licensed as a physician by the state where treatment is received to treat the type of condition for which a claim is made.

STROKE: apoplexy due to rupture or acute occlusion of a cerebral artery. The apoplexy must cause complete or partial loss of function involving the motion or sensation of a part of the body and must last more than 24 hours. The stroke must be positively diagnosed by a physician based upon documented neurological deficits and confirmatory neuroimaging studies. Stroke does not mean head injury, transient ischemic attack (TIA), cerebrovascular insufficiency, or lacunar infarction (LACI).

SUDDEN CARDIAC ARREST: sudden, unexpected loss of heart function in which the heart abruptly and without warning stops working as a result of an internal electrical system malfunction of the heart. Any death where the sole cause of death shown on the death certificate is cardiovascular collapse, sudden cardiac arrest, cardiac arrest, or sudden cardiac death shall be deemed to be sudden cardiac arrest for purposes of the policy. Sudden cardiac arrest is not a heart attack.
