

Aflac Group Critical Illness

INSURANCE – PLAN INCLUDES BENEFITS
FOR HEALTH SCREENING

We help take care of your
expenses while you take
care of yourself.

Aflac can help ease the financial stress of surviving a critical illness.

Chances are you may know someone who's been diagnosed with a critical illness. You can't help notice the difference in the person's life—both physically and emotionally. What's not so obvious is the impact a critical illness may have on someone's personal finances.

That's because while a major medical plan may pay for a good portion of the costs associated with a critical illness, there are a lot of expenses that may not be covered. And, during recovery, having to worry about out-of-pocket expenses is the last thing anyone needs.

That's the benefit of an Aflac Group Critical Illness plan.

It can help with the treatment costs of covered critical illnesses, such as a heart attack or stroke.

More importantly, the plan helps you focus on recuperation instead of the distraction of out-of-pocket costs. With the Critical Illness plan, you receive cash benefits directly (unless otherwise assigned)—giving you the flexibility to help pay bills related to treatment or to help with everyday living expenses.

What you need, when you need it.

Group critical illness insurance pays cash benefits that you can use any way you see fit.

INITIAL DIAGNOSIS

We will pay a lump sum benefit upon initial diagnosis of a covered critical illness when such diagnosis is caused by or solely attributed to an underlying disease. Benefits will be based on the face amount in effect on the critical illness date of diagnosis.

ADDITIONAL DIAGNOSIS

We will pay benefits for each different critical illness after the first when the two dates of diagnoses are separated by at least 6 consecutive months.

REOCCURRENCE

We will pay benefits for the same critical illness after the first when the two dates of diagnoses are separated by at least 6 consecutive months.

CHILD COVERAGE AT NO ADDITIONAL COST

Each dependent child is covered at 50 percent of the primary insured's benefit amount at no additional charge. Children-only coverage is not available.

WAIVER OF PREMIUM

If you become totally disabled due to a covered critical illness prior to age 65, after 90 continuous days of total disability, we will waive premiums for you and any of your covered dependents. As long as you remain totally disabled, premiums will be waived up to 24 months, subject to the terms of the plan.

SUCCESSOR INSURED BENEFIT

If spouse coverage is in force at the time of the primary insured's death, the surviving spouse may elect to continue coverage. Coverage would continue at the existing spouse face amount and would also include any dependent child coverage in force at the time.

HEALTH SCREENING BENEFIT (Employee and Spouse only)

We will pay \$50 for health screening tests performed while an insured's coverage is in force. We will pay this benefit once per calendar year.

This benefit is only payable for health screening tests performed as the result of preventive care, including tests and diagnostic procedures ordered in connection with routine examinations. This benefit is payable for the covered employee and spouse.

TERMS YOU NEED TO KNOW

The Bone Marrow Transplant (Stem Cell Transplant) benefit is not payable if the transplant results from a covered critical illness for which a benefit has been paid under this plan.

Critical Illness is a disease or a sickness as defined in the plan that first manifests while your coverage is in force.

Date of Diagnosis is defined as follows:

- Bone Marrow Transplant (Stem Cell Transplant): The date the surgery occurs.
- Coronary Artery Bypass Surgery: The date the surgery occurs.
- Heart Attack (Myocardial Infarction): The date the infarction (death) of a portion of the heart muscle occurs. This is based on the criteria listed under the heart attack (myocardial Infarction) definition.
- Kidney Failure (End-Stage Renal Failure): The date a doctor recommends that an insured begin renal dialysis.
- Major Organ Transplant: The date the surgery occurs.
- Stroke: The date the stroke occurs (based on documented neurological deficits and neuroimaging studies).
- Sudden Cardiac Arrest: The date the pumping action of the heart fails (based on the sudden cardiac arrest definition).

Dependent means your spouse or your dependent child. Spouse is your legal wife, husband, or partner in a legally recognized union. Dependent children are your or your spouse's natural children, step-children, foster children, children subject to legal guardianship, legally adopted children, or children placed for adoption, who are younger than age 26 (In Arizona, on the effective date of coverage). Newborn children are automatically covered from the moment of birth. Refer to your certificate for details.

A doctor does not include you or any of your family members. In Arizona, however, a doctor who is your family member may treat you. For the purposes of this definition, family member includes your spouse as well as the following members of your immediate family:

- Son
- Daughter
- Mother
- Father
- Sister
- Brother

This includes step-family members and family-members-in-law.

Employee is a person who meets eligibility requirements and who is covered under the plan. The employee is the primary insured under the plan.

Diagnosis of a Heart Attack (Myocardial Infarction) must include the following:

- New and serial electrocardiographic (ECG) findings consistent with heart attack (myocardial infarction), and
- Elevation of cardiac enzymes above generally accepted laboratory levels of normal. (In the case of creatine phosphokinase (CPK) a CPK-MB measurement must be used.)

Confirmatory imaging studies, such as thallium scans, MUGA scans, or stress echocardiograms may also be used.

Kidney Failure (End-Stage Renal Failure) is covered only under the following conditions:

- A doctor advises that regular renal dialysis, hemo-dialysis, or peritoneal dialysis (at least weekly) is necessary to treat the kidney failure (end-stage renal failure); or
- The kidney failure (end-stage renal failure) results in kidney transplantation.

A Major Organ Transplant benefit is not payable if the major organ transplant results from a covered critical illness for which a benefit has

been paid.

Stroke does not include:

- Transient Ischemic Attacks (TIAs)
- Head injury
- Chronic cerebrovascular insufficiency
- Reversible ischemic neurological deficits unless brain tissue damage is confirmed by neurological imaging

Sudden Cardiac Arrest is not a heart attack (myocardial infarction). A sudden cardiac arrest benefit is not payable if the sudden cardiac arrest is caused by or contributed to by a heart attack (myocardial infarction).

YOU MAY CONTINUE YOUR COVERAGE

Your coverage may be continued with certain stipulations. See certificate for details.

TERMINATION OF COVERAGE

Your insurance may terminate when the plan is terminated; the 31st day after the premium due date if the premium has not been paid; or the date you no longer belong to an eligible class. If your coverage terminates, we will provide benefits for valid claims that arose while your coverage was in force. See certificate for details.
