CANCER INDEMNITY INSURANCE – OPTION 2

We've been dedicated to helping provide peace of mind and financial security for more than 60 years.

THE POLICY IS A LIMITED POLICY. THE POLICY DOES NOT PROVIDE COMPREHENSIVE HEALTH INSURANCE COVERAGE. IT IS NOT INTENDED TO SATISFY THE INDIVIDUAL MANDATE OF THE AFFORDABLE CARE ACT (ACA) OR PROVIDE THE MINIMUM ESSENTIAL COVERAGE REQUIRED BY THE ACA (OFTEN REFERRED TO AS MAJOR MEDICAL COVERAGE). IT DOES NOT PROVIDE COVERAGE FOR HOSPITAL, MEDICAL, SURGICAL OR MAJOR MEDICAL EXPENSES.

AFLAC CANCER PROTECTION ASSURANCE

CANCER INDEMNITY INSURANCE – OPTION 2

Policy Series B70000

We're there when you need us most

The unfortunate reality is cancer touches almost everyone at some point in their lives, whether it's yourself or a loved one. But each person has a unique story, especially when it comes to cancer treatment. We believe if faced with a cancer diagnosis, you need real solutions that help you face the financial, physical and emotional challenges often experienced by cancer patients and their families – before, during, and after treatment.

Since 1958, Aflac has been a pioneer in cancer insurance. As cancer treatment protocols have changed, our coverage has evolved to help cover the costs of those innovative treatments and provide solutions that empower you to seek treatment, while easing the financial concerns that often accompany it.

Benefits paid directly to you

Aflac Cancer Protection Assurance pays cash benefits directly to you, when you need them most. If you're ever diagnosed with a covered cancer, these benefits are more important than ever. Why? Because cancer treatment can be expensive.

Health insurance was never intended to cover the cost of things like deductibles, co-pays, lost work time, or even travel. Aflac Cancer Protection Assurance can help with cancer-associated costs like these.

Understand the difference Aflac makes in your financial security.

Aflac pays cash benefits directly to you. This means that you can have added financial resources to help with expenses incurred due to medical treatment, ongoing living expenses or any purpose you choose.

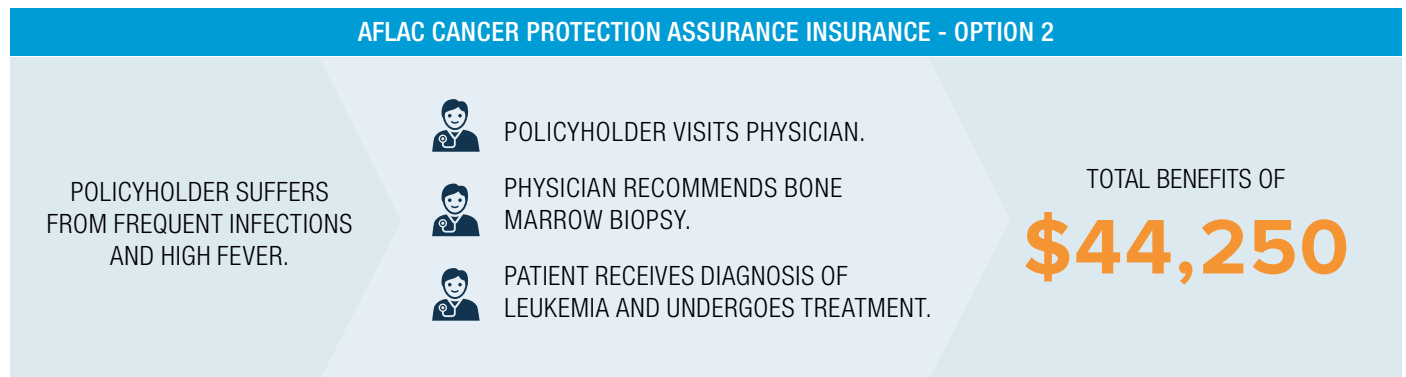

Aflac Cancer Protection Assurance stays with you for life*

We're with you, even when you're well. We pay a benefit for early detection and preventive care, like mammograms, PSA blood tests, and many other kinds of cancer screenings.

We'll see you all the way through treatment. If you're diagnosed with cancer, we offer benefits that you can count on. You'll receive a benefit upon initial diagnosis of a covered cancer and our support doesn't end there.

We give you the freedom to choose the best care for you. You and your doctor decide on a treatment plan together; we help provide you with financial support for every month that you're undergoing that treatment. Want a second opinion? We provide a benefit for that, too.

INITIAL DIAGNOSIS BUILDING BENEFIT RIDER:

(SERIES B70050) Applied for Yes No

INITIAL DIAGNOSIS BUILDING BENEFIT: This benefit can be purchased in units of \$100 each, up to a maximum of five units or \$500. **If more than one unit has been purchased, the number of units purchased must be multiplied by \$100.** The number of units you purchased is shown in both the Policy Schedule and the attached application.

The **INITIAL DIAGNOSIS BUILDING BENEFIT** will increase the amount of your Initial Diagnosis Benefit, as shown in the policy, by \$100 for each unit purchased for each Covered Person on the anniversary date of their coverage, while coverage remains in force. (The amount of the monthly increase will be determined on a pro rata basis.) This benefit will be paid under the same terms as the Initial Diagnosis Benefit in the policy to which the rider is attached. This benefit will cease to build for each Covered Person on the anniversary date of the rider following the Covered Person's 65th birthday or at the time Internal Cancer or an Associated Cancerous Condition is diagnosed for that Covered Person, whichever occurs first. However, regardless of the age of the Covered Person on the Effective Date of coverage, this benefit will accrue for a period of at least five years, unless Internal Cancer or an Associated Cancerous Condition is diagnosed prior to the fifth year of coverage.

Exceptions, Reductions, and Limitations of Rider Series B70050:

The rider contains a 30-day waiting period. If a Covered Person has Internal Cancer or an Associated Cancerous Condition diagnosed before his or her coverage has been in force 30 days, you may, at your option, elect to void the rider from its beginning and receive a full refund of premium paid for the rider, less any benefits paid under the rider.

The Initial Diagnosis Building Benefit is not payable for: (1) any Internal Cancer or Associated Cancerous Condition diagnosed or treated before the Effective Date of coverage under the rider and the subsequent recurrence, extension, or metastatic spread of such Internal Cancer or Associated Cancerous Condition; (2) Internal Cancer or Associated Cancerous Conditions diagnosed during the rider's 30-day waiting period; or (3) the diagnosis of Nonmelanoma Skin Cancer. **Any Covered Person who has had a previous diagnosis of Internal Cancer or an Associated Cancerous Condition will NOT be eligible for an Initial Diagnosis Building Benefit under the rider for a recurrence, extension, or metastatic spread of that same Internal Cancer or Associated Cancerous Condition.**

DEPENDENT CHILD RIDER: (SERIES B70051)
Applied for Yes No

DEPENDENT CHILD BENEFIT: Aflac will pay \$10,000 when a covered Dependent Child is diagnosed as having Internal Cancer or an Associated Cancerous Condition while the rider is in force.

This benefit is payable under the rider only once for each covered Dependent Child. In addition to the Positive Medical Diagnosis, we may require additional information from the attending Physician and Hospital.

Exceptions, Reductions, and Limitations of Rider Series B70051:

The rider contains a 30-day waiting period. If a covered Dependent Child has Internal Cancer or an Associated Cancerous Condition diagnosed before his or her coverage has been in force 30 days, you may, at your option, elect to void the rider from its beginning and receive a full refund of premium paid for the rider, less any benefits paid under the rider.

The Dependent Child Benefit is not payable for: (1) any Internal Cancer or Associated Cancerous Condition diagnosed or treated before the Effective Date of the rider and the subsequent recurrence, extension, or metastatic spread of such Internal Cancer or Associated Cancerous Condition; (2) Internal Cancer or Associated Cancerous Conditions diagnosed during the rider's 30-day waiting period; or (3) the diagnosis of Nonmelanoma Skin Cancer. **Any Dependent Child who has had a previous diagnosis of Internal Cancer or an Associated Cancerous Condition will NOT be eligible for any benefit under the rider for a recurrence, extension, or metastatic spread of that same Internal Cancer or Associated Cancerous Condition.**

(6) Payment of Nonsurgical Treatment and Preventative Care Benefits:

If an initial prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication instructs a Covered Person to take the medication orally for a period of thirty days or less, then the payment under the applicable Nonsurgical Treatment and Preventative Care Benefit is limited to the Calendar Month in which the medication was prescribed, received, and the Covered Person incurred a charge.

If a prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication which instructs a Covered Person to take the medication orally for a period of thirty days or less is refilled during a Calendar Month in which the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit has previously been paid, then we will pay the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit in advance for one additional Calendar Month for which it has not previously been paid without requiring proof a Covered Person incurred a charge for the medication during that additional Calendar Month. Otherwise, if the prescription is refilled during a Calendar Month in which the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit has not

been previously paid, then the benefit is limited to the Calendar Month in which the medication was prescribed, received, and the Covered Person incurred a charge.

If an initial prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication instructs a Covered Person to take the medication orally for a period of more than thirty days but less than 61 days, then we will pay the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit in advance for one additional, consecutive Calendar Month without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Month.

If an initial prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication instructs a Covered Person to take the medication orally for a period of more than sixty days but less than 91 days, then we will pay the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit in advance for two additional, consecutive Calendar Months without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Months.

If a prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication which instructs a Covered Person to take the medication orally for a period of more than thirty days is refilled during a Calendar Month in which the payment under the applicable Nonsurgical Treatment and Preventative Care Benefit has previously been paid, then we will pay the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit in advance for up to three additional, consecutive Calendar Months for which it has not previously been paid without requiring proof a Covered Person incurred a charge for the medication during the three additional, consecutive Calendar Months. Otherwise, if the prescription is refilled during a Calendar Month in which the payment under the applicable Nonsurgical Treatment and Preventative Care Benefit has not been previously paid, then, so long as the Covered Person incurred a charge during the first Calendar Month of the prescription, for refills instructing a Covered Person to take the medication orally for a period of more than thirty days but less than 61 days, we will pay the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit in advance for one additional, consecutive Calendar Month without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Month, and for refills instructing a Covered Person to take the medication orally for a period of more than sixty days but less than 91 days, we will pay the stated amount under the applicable Nonsurgical Treatment and Preventative Care Benefit in advance for two additional, consecutive Calendar Months without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Months.

For injected treatment, the stated amount under the applicable Radiation Therapy, Chemotherapy, Immunotherapy, Or Experimental Chemotherapy Benefit is payable one time per prescribed injection, but not more than one time per Calendar Month. The Surgical/Anesthesia Benefit provides amounts payable for insertion and removal of a pump. Benefits will not be paid for each month of continuous infusion of medications dispensed by a pump, implant, or patch.

If only Experimental Chemotherapy is payable during any Calendar Month, the benefit amount will be reduced 50% for Experimental Chemotherapy for which no charge is incurred. If a Covered Person received the stated amount under the applicable Radiation Therapy, Chemotherapy, Immunotherapy, Or Experimental Chemotherapy Benefit at the reduced 50% amount and, later in the same Calendar Month, receives Radiation Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy where a charge is incurred, we will pay the difference between the 50% previously received and the Radiation Therapy, Chemotherapy, Immunotherapy, or Experimental Therapy Benefit.
